## Navigating the Referring Provider Portal

The Referring Provider Portal is used by referring providers to submit referrals, request appointments, and view results for their patients.

### Final Results Worklist

After logging in, the default view for most users will be the Final Results worklist. This list displays completed imaging procedures and allows users to read finalized reports. You can also print or save reports using the icons shown below.

The screenshot displays the AbbaDox Referring Provider Portal interface. On the left is a dark sidebar with navigation options: Patients, Workflows, Referrals, Open Appointments, Final Results (selected), and No Show / Canceled. The main area shows a table of imaging results with columns: Rec.#, Patient Name, Provider, Author, DOS\*, and Actions. The table lists four records, with the first one highlighted. A green box highlights the 'Actions' column for the first record, showing icons for 'Print or save' and 'Patient Chart'. To the right of the table, a patient report is displayed for 'zztest, Buddy'. The report includes patient information, exam details, and a detailed findings section. A green arrow points to the 'Print or save' icon in the top right corner of the report area.

| Rec.#      | Patient Name    | Provider      | Author                | DOS*       | Actions                         |
|------------|-----------------|---------------|-----------------------|------------|---------------------------------|
| 08-2000020 | zztest, Buddy   | zzTest, Sarah | Shramek, Jeffroy      | 04/07/2026 | [Print or save] [Patient Chart] |
| 08-2000027 | ZZtest, Butters | zzTest, Sarah | Shramek, Jeffroy      | 04/06/20   | [DICOM]                         |
| 08-1792316 | TestSC, Fax     | zzTest, Sarah | LandrethMD, Katie     | 03/26/20   | [Patient Chart]                 |
| 08-1838295 | Test, Brinkle   | zzTest, Sarah | Radiologist, Medquest | 03/24/2026 | [Print or save] [Patient Chart] |

**Patient Report:**

PATIENT NAME: zztest, Buddy  
DOB: 01/01/2000  
MRN: 08-2000020  
PHONE: (777)777-7777  
PHYSICIAN: Sarah Test  
EXAM DATE: 04/07/2026

EXAM: MRA Head and Neck With Contrast  
REASON FOR EXAM: W36.4:Contact with shark  
COMPARISON: None.

TECHNIQUE: 2D and 3D time-of-flight MR angiography of the neck and head with volume rendered and rotating 3D MIP reconstructions independent 3D workstation performed after the intravenous administration of contrast.

FINDINGS: Normal evaluation of the transverse aortic arch and great vessels. Normal diameter and smooth lumens of the extracranial vertebral and basilar arteries with no evidence for dissection, aneurysm, pseudoaneurysm, arteritis, or fibromuscular dysplasia. Alternating diameter narrowings and caliber changes of the vertebral arteries within the neck compatible with fibromuscular dysplasia. There is also atherosclerotic plaque within the proximal right ICA producing a 40% diameter stenosis. Suggestion of a subtle erosion into atherosclerotic plaque at this site may indicate intraplaque ulceration. This places the patient at increased risk of thromboembolic disease to the brain and CVA.

15 mm patent aneurysm of the right MCA bifurcation is directed posteriorly and inferiorly. In addition, there is 30% narrowing of the left A1 ACA with poststenotic dilatation.

Infundibulum of the right posterior communicating artery.

IMPRESSION:

- 15 mm patent right MCA bifurcation aneurysm.
- 50% narrowing of the left A1 ACA with poststenotic dilatation.
- Fibromuscular dysplasia of the vertebral arteries within the neck.
- Atherosclerotic plaque within the proximal right ICA producing a 40% diameter stenosis. Suggestion

- Click the  and then click DICOM to view the study images or Patient Chart to view patient demographics and documents, OR click the  and  buttons.

## Open Appointments Worklist

The Open Appointments list displays all patient appointments and their current status in the imaging workflow.

| Patient Name        | Patient DOB | Location         | Ref Full Name     | Date of Service     | Appointment Status | Work Type Description | Exam Description          | Pending Reason     |

For appointments in **Pending** status, the **Pending Reason** column provides additional details on the pending appointment.

- Click the pencil icon , named Patient Chart, to view patient demographics and documents.
- Click the  and then click DICOM to view the study images.

## No Show/Canceled Worklist

The No Show/Canceled Worklist displays patients who have either “no showed” to their appointment or their appointment was canceled for some other reason. If canceled, this worklist will also display the Canceled Reason.

| Patient Name           | Provider          | Appointment Status | DOS*                | Canceled Reason | Exam Description  |
|------------------------|-------------------|--------------------|---------------------|-----------------|-------------------|
| zzTest, Georgina       | zzTest, Christina | Cancel             | 04/22/2026 04:30 PM | IT Test         | MR Brain and MR   |
